Email: order@abdesignlabs.com

Revision: 01/09/2024

DESCRIPTION

Source: Recombinant murine IgG1/K
Immunogen: M13 phage
Specificity: Major coat protein g8p of M13 filamentous bacteriophage.
This antibody does not bind to f1 or fd virions.
Clone: A4G1.6
Purification: Protein A affinity chromatography
Purity: >95%
Storage: -20°C

CHARACTERISTICS

Catalog number: AS001 Purified unlabeled IgG 100 µg at 0.5 mg/ml in PBS/glycerol 50:50 v/v

APPLICATIONS

ELISA: Typically used for phage ELISA
Others: Not tested

SUGGESTED WORKING DILUTIONS

ELISA: 1/1000 to 1/2000 dilution

LEGAL AND DISCLAIMERS

Antibody Design Labs grants to the buyer with the sale of this antibody (the "Product") a non-exclusive, non-transferable, non-commercial and royalty-free license to use Product in research conducted by the buyer. The buyer is NOT granted a license to (a) use Product for human or animal therapeutic, diagnostic, or prophylactic purposes, or (b) act as reseller or distributor of Product. The buyer agrees not manufacture or duplicate the Product in order to sell, transfer, distribute, reverse-engineer the Product or attempt to gain knowledge on the amino acid sequence by any means, including mass spectrometry analysis, Edman sequencing or any other method to analyze amino acid sequences, disclose, or otherwise provide access to whole or part of the Product to any third party.
